## Samuel Morse gave the first public Telegraph demonstration 178 years ago

A neglected anniversary of sorts came and went on 24 May; it was the first public demonstration of Samuel F.B. Morse's telegraph 178 years ago at B&O Mount Clare Station, today the home of the Baltimore and Ohio Railroad Museum. As with so many things, tragedy can be the mother of invention and Morse's development of the telegraph was born from a deep personal tragedy.

Samuel Finley Breese Morse, born in 1791 in Charlestown, Massachusetts, was a Phi Beta Kappa graduate of Yale University and made his living as a portrait painter. He was in Washington working on a commission in 1825 when word reached him that his wife, Lucretia Pickering Walker Morse, had died of a heart attack in New Haven, Connecticut, shortly after giving birth to their third child.

In the face of wide scepticism, Morse obtained from Congress a 30 000 dollar appropriation that allowed him to pursue his work for what eventually became known as the telegraph. Morse also created what is known as Morse Code, the dot and dash code used for sending messages. Morse used different combinations of dots and dashes to represent the letters in the English alphabet and the 10 digits.

## Dx from Africa

Somalia, 6O. Ali, EP3CQ was active as 6O1OO using FT8 and CW on 80 to 15 meters until 5 June. He will then resume operations on 16 June for a one month stay. (Hopefully he will remember the microphone!)

Ghana, 9G. Alan, G3XAG is currently operating as 9G5XA with a QRP rig, mostly on 17 and 15 metres CW. QSL direct via G3SWH or LoTW.

Rwanda, 9X. Harald, DF2WO is signing 9X2AW until 22 June on 160 to 10 metres using mainly digital modes with some CW and SSB and QO-100. Following his stay in Rwanda, he plans to move on to Burkina Faso and continue as XT2AW. QSL via M0OXO.

Djibouti, J2. After a 2-year hiatus the Mediterraneo DX Club is organising a new trip, this time to Djibouti. A large team (IK4QJF, IU8LMC, IZ2GNQ, IZ3GNG, IZ4UEZ, IZ8CCW, DJ5IW, DL6LZM, DL8JJ, DL8OBF, AG4W, KO8SCA, NG7M, and YO8WW) will be active as J28MD between 29 October and 7 November on 160 – 10 m using CW, SSB, RTTY and FT8 with 4 rigs. QSL via ClubLog OQRS, LoTW or via IK2VUC. For more information see <https://www.mdxc.org/j28md/>

## African Islands

Sao Tome, S9. Ryan, KOEFW will be active holiday style as S9EFW from Sao Tome (AF-023) between 14 and 19 June. He will operate mainly SSB on 40, 20, 15 and 10 metres. QSL via his OQRS (<https://dpxpeditions.k0efw.com>) and LoTW. During this trip he will set up a contest/remote station.

## The Latest 3Y0J News

The 2023 Bouvet Island DXpedition team leaders posted their Press Release #10 on 3 June. "In late April we successfully conducted a 4-day vessel inspection in Brazil that ended with a very good result. The inspection was carried out by a third party vessel inspector and covered more than 105 checkpoints. The vessel inspection focused on safety equipment, instruments, navigation, engines/machinery, deck, tenders, fuel & fluids, interior, and exterior. 'Marama' is in very good condition and hence the overall feedback is positive. The vessel went through significant upgrades with regards to machinery and engines in 2021 and has since been tested for years, most lately during the previous Antarctica season. The inspection file resulted in a punch list of only a few minor items to be followed up, no major findings during the 4-day inspection.

The team is currently working on the final preparations for packing the container scheduled to be shipped from Oslo in early September. Preparing the packing and shipping the container is extremely time consuming and requires a focus on details as our more than two years of work now is being materialized into packing lists and labelling the equipment. Today we have finally decided our container will be shipped to Port Stanley, Falkland Islands. In Port Stanley a local team of amateur radio operators will assist us in receiving the container, conduct a container inspection and make sure all is OK before the team arrive in early January. To Bouvet the team will bring 6 500 kg of equipment, which includes several tons of fuel and food. Our contract allows for 22 days on the island, but we have food for 30 days and a plan for rationing should we have to stay beyond 22 days.

At this stage all the operators have already paid their full deposit of their individual \$20 000 (R311 788) operator fee. This is your insurance that we will do whatever we can to make this DXpedition a success. In a few weeks we will pay our 2nd vessel deposit to 'Marama'. Ultimately this represents a huge undertaking for us financially as well a commitment to go to Bouvet and activate the rare #2 DXCC Bouvet Island. With all the preparation and planning over the course of the last two years you can rely on our commitment and our determination to go onshore Bouvet in a zodiac seven months from now.

Going to Bouvet would simply not be possible without the support from the vendors, clubs, foundations, and individual sponsors. 1 June, we completed our budget update, and this shows we're still missing roughly \$100 000 (R1 558 944) out of our \$690,000 (R10 756 717) budget to be able to go to Bouvet. As we now prepare for the next vessel deposit, we need your support to close the gap. Please consider supporting us by donating upfront. You can follow our plans from our website ([www.3y0j.no/](http://www.3y0j.no/)) and the 3Y0J Facebook pages ([www.facebook.com/groups/3093983840726129](https://www.facebook.com/groups/3093983840726129))".
